DEFECTIVE VEHICLE -- MVA 219(1) . Is an appropriate when there is no specific charge for the vehicle defect or there are multiple defects on a single vehicle.

NOTE: It is recommended that 2 or more vehicle defects are present prior to charging 219(1). As example below. If vehicle has an IMMEDIATE safety risk and cannot be safely remedied roadside, issue N&O 1 or 2.

Red borders indicate vehicle component specific charges and information. Violations on commercial vehicles carry National Safety Code points that redound to the carrier. NSC numbers must be noted if applicable.

Orange shading denotes a potential critical safety defect. Officers should review the 7.09(1) MVAR - ITEM number to establish corrective actions (N&O)

NOTE: A Box #1 and #2 will legally compel the vehicle owner to have a complete vehicle inspection. This is not necessary if the vehicle can proceed safely.

VEHICLE SECTION - component specific charges

Vehicle brake exemptions (MVAR 5.02(3)):

- a) On 1 axle of a house trailer with more than 2 axles, on any axle of trailer
- b) If licensed GVW of trailer is 1,400 kg or less AND, is less than 50% of licensed GVW of towing trailer
- c) On any axle of towing dolly towed by motor vehicle where: aggregate net weight of towing dolly and gross weight of the towed vehicle (one axle on tow dolly) does not exceed 1,400 kgs OR, motor vehicle towing the towing dolly has a GVW rating in excess of the aggregate of the:
 - net weight of towing dolly
 - GVW of the motor vehicle one axle of which is being carried by the towing dolly, and
 - GVW of the motor vehicle towing the towing dolly.
- d) On any axle of a motor vehicle where 1 axle is being carried by towing dolly,
- e) On any axle of a trailer consisting of a piece of construction machinery towed by a truck where the truck GVWR exceeds the aggregate of the gross vehicle weights of the trailer and truck.

VEHICLES AS CARGO

“light vehicle” means an automobile, truck or van that weighs 4 500 kilograms or less

88(1) Light vehicles shall be secured in accordance with this section.

(2) Despite section 22, a light vehicle shall be restrained at both the front and rear from moving sideways, forward, rearward and vertically using a minimum of 2 tiedowns.

(3) Tiedowns that are designed to attach to the structure of a light vehicle shall be attached to the mounting points on the vehicle that are specifically designed for that purpose.

(4) Tiedowns that are designed to fit over or around the wheels of a light vehicle shall restrain the vehicle from moving sideways, forward, rearward and vertically.

(5) Despite section 20, edge protectors are not required for synthetic webbing at points where the webbing comes into contact with the tires of the light vehicle.

(6) It is prohibited to transport stacks of light vehicles.

“heavy vehicle” means

(i) a vehicle that weighs more than 4 500 kilograms, or

(ii) equipment or machinery that operates on wheels or tracks and weighs more than 4 500 kilograms;

89(1) Heavy vehicles shall be transported in accordance with this section.

(2) Accessory equipment on a heavy vehicle, including a hydraulic shovel, shall be completely lowered and secured to the vehicle unless:

(a) the accessory equipment can only move vertically;

(b) accessory equipment that can pivot, tilt or move sideways is blocked or immobilized by the transporting vehicle’s structure or by a blocking or securement mechanism built into the transported vehicle.

(3) Articulated vehicles shall be restrained in a manner that prevents articulation while the vehicle is on a highway.

(4) Despite section 22, a heavy vehicle with crawler tracks or wheels shall be restrained against moving sideways, forward, rearward and vertically by at least 4 tiedowns,

(a) each with a working load limit of at least 2 268 kilograms, and

(b) each attached, as close as practical, at the front and rear of the vehicle or to mounting points on the vehicle that are specifically designed for that purpose.
