

Wine - something might be added to the wine in order to kill Rasputin.

Cookies - same as the wine, something might be added here too.

Handprint on wall - Rasputin was trying to escape as he was attacked (since the wine and the cookies did nothing to him).

Blood splatter on table - Rasputin was probably shot near the left side of the table so it created a splatter.

Splatter on wall - He was probably shot near there too.

Handprint on chair - Rasputin was trying to escape so he held on the chair and the chair fell.

Splatter on Ground/Wall - He probably got shot again.

Bullet case/gun on ground - since there are 3 bullet cases in the ground, he was probably shot 3 times but only 2 landed since there are only 2 splatters here.
